

# Powering **Data Journeys** with AWS

PivotX Advisors, LLC is proud to be AWS Data-Driven Everything (D2E) certified!

D2E is an exclusive invite-only program, with only 32 partners certified as of mid-2024.

AWS D2E focuses on helping customers move faster and with greater precision in their data-centric journey.

There's incredible alignment between D2E's focus on people, process and technology to accelerate the data flywheel and our Data as a Product approach.

We're excited to partner with AWS to help customers embed data into the decision fabric of their organization.
